INTRODUCTION

Thank you for the opportunity to present our approach to the Influencer Marketing campaign for Shiamak Davar Dance Academy. This document outlines our strategy, thought process, and estimated costs for the recommended creators with a proper understanding to address visibility and evaluation of the influencers campaign.

Campaign Overview

Objective: The goal of this is to create an impactful campaign for Shiamak Davar Dance Academy, targeting the Gen Z audience in India. The campaign will leverage the influence of social media to promote dance classes.

Approach: We will craft a robust content that captures the vibrant and emotional essence of dance. This content will align with Gen Z's desire for authenticity and creativity, encouraging them to explore the world of dance.

Deliverables: 1 IG Reel + 1 IG Story (with link)

VISIBILITY STRATEGY / KPI's

We propose several innovative approaches to leverage influencers and maximize the impact of the campaign:

- Approach: Our strategy focuses on spreading the campaign far and wide, ensuring that the message reaches as many interested individuals as possible.

- **Shiamak Davar Website:** The campaign will not only live on social media but also have a dedicated space on the official Shiamak Davar website. This landing page will provide in-depth information about the campaign, dance classes, and how to get involved. It serves as a central hub for interested individuals to learn more and take action.
- **Integrated Marketing Materials:** Beyond the digital realm, the campaign will also be integrated into marketing materials, including eye-catching brochures, posters, and banners. These materials will carry the campaign's spirit to physical spaces, such as dance studios and local community areas, increasing its impact.
- **Impact:** With this multi-pronged approach, we aim to create a seamless and immersive campaign experience for our target audience. By ensuring the campaign's presence across both digital and physical touchpoints, we maximize its exposure and accessibility to a diverse range of Gen Z individuals.

Through this comprehensive visibility strategy, we anticipate not only reaching our target of 50 million people on social media but also creating a lasting and memorable impression in the minds of our audience.

- **Reach:** Reach measures the number of people who have been exposed to the campaign content. By tracking the total impressions across social media platforms, we can gauge the campaign's overall visibility and potential audience size.
- **Engagement:** Engagement reflects the level of interaction the campaign generates. This includes metrics such as likes, shares, comments, and video views. High engagement signifies that the content resonates with the audience and encourages them to actively participate.
- **Leads:** Leads indicate the number of individuals who take a tangible action, such as signing up for a free trial or dance class. This metric directly ties into the campaign's primary objective of generating interest and potential enrollment.

SUCCESS BENCHMARKS

Our campaign will be recognized as a resounding success if it achieves the following benchmarks:

- **Reach:** Extensively exposes the campaign to a substantial portion of our intended audience, surpassing the target of 50 million individuals across social media.
- **Engagement:** Ignites significant interaction and active participation, particularly through valuable comments, widespread sharing, and meaningful connections. This engagement signifies a profound resonance with the content.

By meticulously interpreting and analyzing these performance indicators, we can aptly assess the campaign's influence and pinpoint strengths and areas for refinement. This methodical evaluation ensures not only the realization of our objectives but the surpassing of expectations, establishing a campaign that not only captures attention but also fosters authentic enthusiasm and proactive engagement within the Gen Z demographic.
